

Cosumnes River College
CISN 341
Networking Theory and Routing Technologies
An Online Course
Spring 2025 8w1: January 18 - March 14

Instructor: Buddy Spisak **Online/In Person Office Hours:** Mondays/Wednesdays 1:30 to 3:00 p.m.

Tuesdays/Thursdays 1:30 to 2:30 p.m.

Office: SOC 115

Phone: (916) 691-7062

Using this link: <https://lrcsd.zoom.us/j/87466016886>

Email: spisakj@crc.losrios.edu The turnaround time for responding to most emails is about two to three days. Be sure to include your name and the course number in each email so I can identify who you are and what the email is about.

Course Web page: <https://lrcsd.instructure.com>

Instructor Web page: <http://crc.losrios.edu/spisakj/>

Prerequisites: None

Corequisite: CISN 304

Lecture/Lab: Fully online (18859) Asynchronous – optional live office hours via Zoom on Fridays 7 to 9 p.m.

Accepted for Credit: CSU

Class Credits: 3.5 units

Textbook: No textbook is required for this course. All the reading materials are available via the Cisco Networking Academy at <http://netacad.com>.

Labs: Some labs are done through NDG Netlabs via Canvas.

Resource Materials: CISCO Network Academy Curriculum

Supplies: Earbuds or a headset could be beneficial when listening to videos and a camera for Zoom conferencing.

A flash drive (at least 16GB, but 32GB is preferred) is recommended to store your work for the class.

Course Description:

The second course in the CCNA curriculum focuses on switching technologies and router operations that support small to medium business networks and includes wireless local area networks (WLANs) and security concepts. Students learn key-switching and routing concepts. Students will perform basic network configuration and troubleshooting, identify and mitigate LAN security threats, and configure and secure a basic WLAN. C-ID: ITIS 151

Student Learning Outcomes and Course Objectives:

Upon completion of this course, the student will be able to:

- TROUBLESHOOT AND SOLVE ROUTING PROBLEMS WITHIN A ROUTING DOMAIN (SLO 1).
- Understand and describe the purpose, nature, and operations of a router, routing tables, and the route lookup process, dynamic routing protocols, distance vector routing protocols, and link-state routing protocols, the purpose, and types of access control lists (ACLs), and the operations and

benefits of Dynamic Host Configuration Protocol (DHCP), Domain Name System (DNS) for IPv4 and IPv6, and Network Address Translation (NAT).

- CONFIGURE AND TROUBLESHOOT BASIC OPERATIONS OF A SMALL SWITCHED NETWORK (SLO 2).
- Configure and verify static routing and default routing; configure and troubleshoot basic operations of routers in a small, routed network including Routing Information Protocol (RIPv1 and RIPv2) and Open Shortest Path First (OSPF) protocol (single-area OSPF); Configure, monitor, and troubleshoot ACLs for IPv4 and IPv6; and configure and troubleshoot NAT operations.
- CONFIGURE AND TROUBLESHOOT VLANS IN A SMALL SWITCHED NETWORK (SLO 3).
- Configure VLANs and Inter-VLAN routing by applying security best practices.
- Troubleshoot inter-VLAN routing on Layer 3 devices.
- Configure redundancy on a switched network using STP and EtherChannel.
- Configure WLANs using WLC and L2 security best practices.
- Configure switch security to mitigate LAN attacks.
- Configure IPv4 and IPv6 static routing on routers.

Methods of Measuring Student Learning Outcomes:

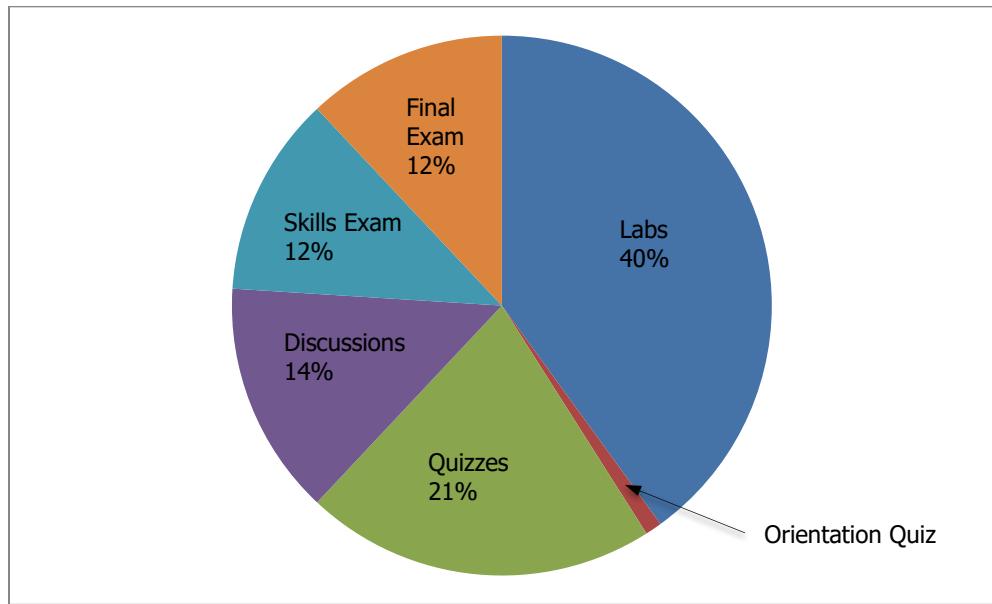

- You will demonstrate knowledge of course concepts through class discussions and achievement on quizzes and a final examination.
- You will demonstrate competence in the coursework by completing lab work and participating in discussions during the semester.

Student Obligations:

- **Attendance:** Since this course is online, it is important to participate frequently in the class.
- **Late Work:** Unless noted all assignments are due on Sunday by midnight each week. Late work will be accepted ONLY if you have contacted me prior to the due date either by email or voice mail. In general, late work is due the next week, and no late assignments may be turned in after one week from the original due date regardless of the reason. For every day an assignment is late, you will lose 10% of its grade.
- **Due Dates:** Unless noted, all assignments will be submitted in Canvas. If, for any reason, you cannot access Canvas or are unable to submit the assignment on time, please email it to me instead so that you are not penalized for being late. Quizzes and discussion items cannot be taken past their due dates. If you miss a quiz and you want to make up points, you can take advantage of the extra credit assignments posted in Canvas. Everyone is welcome to work on the extra credit assignments. Typically, they are five to ten points each, depending on the difficulty of the assignment.
- **Labs:** There will be seven labs credited for homework for the class. The due dates are in the **SCHEDULE** portion of this handout. We will spend a lot of time working on lab activities. Each lab has a set of review questions that you will need to answer in Canvas to receive points for that assignment.
- **Discussions:** I want everyone to take a proactive approach to learning this material. This includes using the discussion feature in Canvas to ask questions and answer other students' questions. I will also post questions each week that you can answer to further your understanding of the material. I expect two postings each week unless otherwise noted.
- **Language Matters:** Part of communicating effectively involves communicating correctly with one another. This is not an English class; however, I will be looking at and commenting on the basic accuracy of your written English, such as sentence boundaries, spelling, and other basic grammar issues. While you will not fail the class because of your English, you may lose some points for frequent and repeated errors. Remember that your use of English can influence your readers positively—or negatively.
- **Skills Exam and Final Exam:** These exams will be administered through Canvas.
- **Plagiarism Policy:** It is inappropriate, and a violation of academic policy, to copy information from any source (including, but not limited to, textbooks, magazine articles, newspaper articles

and internet articles) without giving proper credit to the author by using standard quotation procedures such as in-line quotes, footnotes, endnotes, etc. Quotes may not exceed 25% of the assignment's total length. You will receive no credit (0 points) for any assignment that copies any material from any other source without giving proper credit to the author(s). Repeat offenders of this policy are subject to academic discipline as outlined in the policies published by the college.

- **Cheating:** Students who cheat will receive a failing grade for the course. (See the Plagiarism and Cheating page of the college website (<https://crc.losrios.edu/about-us/our-values/student-rights-and-responsibilities/plagiarism-and-cheating>.)
- **CRC Honor Code:** Academic integrity requires honesty, fairness, respect, and responsibility. [See the Cosumnes River College Honor Code posted on the college website (<https://crc.losrios.edu/about-us/our-values/student-rights-and-responsibilities/student-honor-code>)].
- **Email:** Every student will be required to have an email account. If you do not have an email account, the college provides free email accounts for all current students.
- **Email etiquette:** I will not tolerate rude and demeaning comments or emails to anyone in this class. Please keep your comments and emails topic-related. If I determine that a comment or email to anyone else in the class is rude or demeaning, I will warn you once. If your behavior continues to be unacceptable, I will refer you to the administration of the college for disciplinary action.
- **Personal belongings:** All cell phones, beepers, pagers, etc. should be turned off or set to vibrate during any of the online lectures/labs.
- **Disabilities:** If you have a documented disability and wish to discuss academic accommodations, please contact me or contact the Office of Disabled Student Programs and Services at 916-691-7275 as soon as possible.
- **Canvas:** This class utilizes a product called "Canvas." It is highly recommended that you check the website frequently for scheduling updates and homework assignments. Most of the homework assignments and quizzes will be done on Canvas.
- **Online Course Responsibilities:** This course requires significant self-motivation. You must not get behind. Labs and weekly assignments can take up to 15 hours to finish. Please don't try to finish them in one day. Not all activities are created equal. Some may take a bit longer than others. You would normally spend 7 hours per week in class for this course: a total of 189 hours. Allow yourself at least 10 hours per week to complete the activities online, including the time spent writing the class discussion postings. You should plan additional time to read the textbook and study for the quizzes. Some people believe that an online format provides a much easier way to study this subject than an on-campus framework because they love to read and avoid parking problems. Others feel very intimidated at first. Be patient as you work your way through the activities.
- **AI Policy:** We now live in a world where it has become very easy and, therefore, very tempting to use ChatGPT or other AI tools for course assignments. In this course, the use of AI is considered akin to receiving assistance from another person and raises the same concern that work is not your own. Therefore, the use of AI software for your own study purposes is allowed but using generative AI tools to substantially complete an assignment, particularly written assignments that require your own interpretation and analysis, is not permitted. Your voice, your words, are more important and interesting than anything AI can create. Should your work be flagged by AI detection software, I intend to give you the benefit of the doubt, have a conversation with you first, and offer the opportunity to revise any work that is AI-generated. In return, I expect you to be honest and upfront about your AI usage and ask for extensions or support if you need it.
- **Online Access via Zoom:** This class utilizes a product called "Zoom." It is highly recommended that you are in a quiet room without distractions, have stable internet access, and use a video camera with a quality microphone so that you are seen and heard by everyone.

Grading:

Point System: There are 860 total assigned points.

Grade Ranges: A=774-860, B=688-773, C=602-687, D=516-601, F=0-515

Schedule: It is tentative and can change during the term. All changes will be located under the "Announcements" section in Canvas for the course.

	Day:		Lecture/Lab Schedule:	Assignment Due:	Due Date (By Midnight):
Week 1	Fri.	1/24	Orientation and Introductions	View the Online Orientation	Sun., Jan. 26
			Chapter 1: Basic Device Configuration	Orientation Disc.	
			Chapter 2: Switching Concepts	Orientation Quiz	
			Introduction to Packet Tracer		
			Lab #1		
Week 2	Fri.	1/31	Chapter 3: VLANs	Disc. #1 (Ch. 1-2)	Sun., Feb. 2
			Chapter 4: Inter-VLAN Routing	Lab Review #1	
			Lab #2	Quiz #1 (Ch. 1-2)	
Week 3	Fri.	2/7	Chapter 5: STP	Disc. #2 (Ch. 3-4)	Sun., Feb. 9
			Chapter 6: EtherChannel	Lab Review #2	
			Lab #3	Quiz #2 (Ch. 3-4)	
Week 4	Fri.	2/14	Chapter 7: DHCPv4	Disc. #3 (Ch. 5-6)	Sun., Feb. 16
			Chapter 8: SLAAC and DHCPv6 Concepts	Lab Review #3	
			Lab #4	Quiz #3 (Ch. 5-6)	
Week 5	Fri.	2/21	Chapter 9: FHRP Concepts	Disc. #4 (Ch. 7-8)	Sun., Feb. 23
			Chapter 10: LAN Security Concepts	Lab Review #4	
			Lab #5	Quiz #4 (Ch. 7-8)	
Week 6	Fri.	2/28	Chapter 11: Switch Security Configuration	Disc. #5 (Ch. 9-10)	Sun., Mar. 2
			Chapter 12: WLAN Concepts	Lab Review #5	
			Lab #6	Quiz #5 (Ch. 9-10)	
Week 7	Fri.	3/7	Chapter 13: WLAN Configuration	Disc. #6 (Ch. 11-12)	Sun., Mar. 9
			Chapter 14: Routing Concepts	Lab Review #6	
			Lab #7	Quiz #6 (Ch. 11-12)	
			Final and Skills Review		
Week 8	Fri.	3/14	Chapter 15: IP Static Routing		
			Chapter 16: Troubleshoot Static and Default Routes		
			What is next after this class? meeting		
			Skills Exam	Lab Review #7	
			Final Exam	Skills Exam Final Exam	All work needs to be turned in Fri., Mar. 14
